

The power protection & conditioning leader for audio video systems

Audio video equipment relies on sensitive integrated circuitry for optimal performance and require premium power protection solutions.

The SurgeX Advantage

SurgeX offers a full range of professional grade solutions engineered to safeguard audio video systems. Featuring patented Advanced Series Mode® technology, our ProAV line eliminates surge energy up to 6,000 Volts without producing harmful side effects such as ground contamination or common mode disturbances that can degrade the performance of AV systems. Made with 100% non-sacrificial components that never require reset they provide the most reliable power protection and conditioning available. With SurgeX, your connected equipment will be shielded from AC surges and transients that can disrupt the sound quality and digital performance of your mission critical equipment.

SurgeX ProAV products can be found protecting a wide range of nationally recognized venues. Installations include Carnegie Hall, Hubble Telescope Center, U.S. Library of Congress, Yankee Stadium, Staples Center, and AT&T Stadium.

Advanced Series Mode Technology

- Completely eliminates surge energy up to 6000 volts
- Does not allow ground contamination or common mode disturbances
- 100% non-sacrificial components
- Never requires reset
- A-1-1 certified

Additional Technologies

- COUVS® Catastrophic over/under voltage shutdown
- Impedance Tolerant® EMI/RFI filter
- SurgeX ICE Inrush current elimination
- IP web enabled models
- System management models
- Remote turn on capable models

Benefits

- Increases audio video performance
- Reduces disruptions, downtime, and service costs
- Reduces unnecessary parts and replacement costs
- Proven ROI
- Lifetime product warranty
- Connected equipment protection warranty
